The Call Says David and Cupid Will  
Forsake Hawaii Forever.

According to the San Francisco Call  
"Cupid" Kalaniana'ole and David Ka-  
wanakoa will forsake Hawaii. The  
Call publishes a page article about  
them, part of which is as follows:

There is wondering in Honolulu,  
there is weeping at Waikiki. Hawaii  
will nevermore give peaceful shel-  
ter to a child of the house of Kala-  
kaua. Their lovely island home will  
know them no more. Driven from their  
foreigners, they will sail the seven  
seas over and the green earth round to  
find a home where the white dove of  
peace hovers and makes life a long  
day of sweet content. That is why  
Prince David Kawanakoa is rapidly  
settling his affairs in Honolulu, pre-  
paratory to bidding a last adieu to  
the queen island of the Pacific which  
once his family had for a footstool.  
That is why his brother, Prince Kūiō  
Kalaniana'ole, better known as Prince  
"Cupid," is sightseeing in San Fran-  
cisco.

"It took us a long time to make up  
our minds to leave Hawaii for ever,"  
says Prince Cupid. "My wife has never  
before been away from the islands, and  
my heart has always been with my  
country and her people. But the last  
three years have sadly changed the Ha-  
waii that we natives love. The great  
influx of emigration has brought many  
undesirable people to our shores.  
Where once we lived a free and easy  
life with our doors and windows wide  
open, bolts and bars are now neces-  
sary. Strange customs are stamping  
out our enjoyments, and the curse of  
money-making is taking all the poetry  
out of life on the islands. Ever since  
annexation Hawaii has gone money-  
making mad. Things are getting as  
tense as in other places where King  
Croesus reigned. I can't stand it. So  
I've left it, and I doubt whether I shall  
ever go back again."

So Prince Cupid and his wife are go-  
ing to travel the world over. They  
have youth, health and money but they  
want a home.

"We'll travel till we find a place that  
suits us," they say—"if we ever do."

Over Punchbowl.

A dark tunnel shaped cloud was no-  
ticed over Punchbowl yesterday after-  
noon, some said it was a water spout  
but others are not usually considered  
land animals it was generally supposed  
to be some lost baby cyclone. One  
facetious street-corner philosopher re-  
marked that it was the plague getting  
out of town bag and baggage frightened  
at the nature of some of the bubonic  
bills.

## JAPANESE NAVAL MATTERS

The Labor Question--Wireless Tele-  
graphy--In Pursuit of the  
Reformers.

The following paragraphs are taken  
from a file of the Japan Gazette:

In the present naval maneuvers the  
Japanese fleet is manned, armed, provisioned,  
and provided with ammunition as if for actual fighting.

Reports on Saturday state that  
Mount Asama has been pouring forth  
thick smoke, according to latest ad-  
vices, and roaring terribly.

Ten cases of plague were reported  
in Taiwan Ken, Formosa, on the 1st  
inst and three proved fatal. The total  
number of cases from the first outbreak  
to date is 204, with 150 deaths.

In view of the Smoking Prohibition  
Law in Japan, the Governor of Aomori  
has issued an order prohibiting all  
the teachers of the elementary schools  
in the prefecture from smoking.

The British squadron in Chinese waters  
is concentrating at Wei-hai-wei, by  
latest advices, for the ordinary spring  
muster and fleet exercises. H. M. S.  
Terrible has sailed from England to  
strengthen the fleet out here.

The Japanese Ministers have all  
united in the purchase of a silver horse,  
to be presented their Imperial High-  
ness the Crown Prince and Princess on  
their forthcoming marriage, which is  
to be solemnized on the 6th of May.

It is stated that the college of litera-  
ture, of the Imperial Tokyo University,  
has created a chair of Chinese poetry  
and one of the Buddhist literature of  
the Tendai Sect. The former has been  
given to Mr. "Kainan" Mori and the  
latter to the Rev. Kei-un Mayeda.

Under the provision of a special act  
passed last session for the purpose, the  
government is now taking the neces-  
sary steps for giving aid to and pro-  
tecting the small surviving remnant of  
the hairy Ainu race in Hokkaido. The  
sick and aged are to be provided for,  
and assistance given to the poorer  
classes who will be given implements,  
etc.

A new Imperial railway carriage for  
the use of H. R. H. the Crown Prince,  
the construction of which was under-  
taken some time ago by the Railway  
Traffic and Construction Bureau, has  
recently been completed. The carriage  
will be used for conveying the Prince  
and Princess to Kyoto, after the celebra-  
tion of the Imperial marriage; where  
the honeymoon is to be spent.

The reported visit to Kobe to review  
the warships, toward the close of the  
naval maneuvers, by His Majesty the  
Emperor will probably not take place,  
on account of the prevalence of measles  
in various parts of the country at present.  
The visit of H. R. H. the Crown  
Prince to the squadron also seems to be  
undecided on account of the impending  
marriage.

We learn upon excellent authority  
that Prince Ching, the Empress Dowager's  
right hand man, is now a most  
frequent visitor to the Russian Legation  
in Peking, and his attendance is so  
constant that it has attracted wide-  
spread attention in the capital, writes  
the China Gazette. He is generally at-  
tended by Wan Tsushun, ex-Chinese  
Minister to St. Petersburg, who is now  
Governor of Anhui. It is felt certain,  
though nothing definite is known, that  
some important secret negotiations are  
on foot.

The Japanese warships belonging to  
the three naval stations were assembled  
at Nagasaki on the 4th inst. and wait-  
ing orders to commence operations.  
Admiral Samejima, commander-in-  
chief of the standing squadron, is on  
the Fuji and Rear-Admiral Kataoka,  
on the Yashima. H. R. H. the Prince  
Komatsu, commander on the Yashima,  
is ill and is under medical treatment  
at the naval hospital. The maneuvers  
are being conducted by Admiral Vis-  
count Ito, chief of the Board of Naval  
Command.

A dispatch dated Tuesday states that  
affairs at the Kure naval station are  
very brisk, preparation being made for  
the arrival of over thirty warships. The  
arsenal is busiest and the dockyard is  
working at almost as great pressure.  
About 8,000 men are employed and the  
officers are pushing on the work day  
and night. The marines are engaged  
in target practice daily. No marines  
are allowed ashore and the town pre-  
sents a quiet appearance. The war-  
ships will leave for their destinations  
on or about the 5th inst.

The Japanese are carrying on experi-  
ments industriously in wireless tele-  
graphy. A station has been erected  
within the confines of the Naval De-  
partment in Tsukiji and another at  
Hanedo. The Communications De-  
partment, also, is preparing to establish  
communication by this system with  
the Seven Islands of Izu. Mikomoto-  
jima being the island chosen for the  
purpose, writes the Japan Mail. It is  
stated that the military authorities re-  
gard these proceedings as too slow and  
are about to conduct experiments  
on their own account.

The total amount of damages claim-  
ed by the Japanese residents in Ha-  
waii, whose houses were burnt down  
owing to plague precautions, is es-  
timated at \$520,000 (gold). A committee

of five men is to be appointed by the  
Hawaiian Government, working in  
conjunction with the Washington au-  
thorities, to inquire into the claims.  
By this time the committee has been  
empaneled and should be in full work-  
ing order. There are still 600 Japa-  
nese being housed and led by the local  
authorities under whose supervision  
they are working.

Madame Minnie Hauk (v. Hesse-  
Wartegg), who with her husband M. v.  
Hesse Wartegg, has arrived at Singa-  
pore from a tour in public in Java was  
persuaded to sing in Hawaii during her  
visit to that island. At Batavia, Soerabaya  
and Samarang crowded audiences  
welcomed the talented diva, who created  
Carmen. Governor-General Roseboom,  
Mme. Roseboom, and a brilliant  
staff attended the concert given by  
Minnie Hauk at Batavia, where her ap-  
pearance was greeted with quite an  
ovation, the prima donna being over-  
whelmed with floral tributes and clus-  
ters of rare orchids.

With regard to the claims by Japa-  
nese residents in Honolulu, whose  
property has been destroyed by the Ha-  
waiian authorities, it is stated by the  
vernacular press that the latter have  
decided to appoint a commission to in-  
vestigate the extent of the damage sus-  
tained by the respective sufferers. Pay-  
ment of the claims is to be made ac-  
cording to the decisions of the commis-  
sion which is to sit as a Court of  
Enquiry. The Hawaiian Government  
having already admitted its liability  
for the damage the duty to be perform-  
ed by the court will merely be to de-  
cide upon the amount of the compensa-  
tion.

Seven large Japanese warships are  
still under construction in Europe.  
The first class battleships Asahi, Hat-  
suse, Mikasa and the first class cruisers  
Iwate and Izumo are in course of con-  
struction in England, while the first  
class cruisers Yakumo and Azuma are  
being built in Germany and France re-  
spectively. The following list shows  
the names of the vessels, with their  
tonnage, speed, and date of completion.

Ship	Tons	Speed	Completion
Asahi	15,447	18	30th Apr., 1900
Hatsuse	15,240	18	24th Oct., 1901
Mikasa	15,240	19	19th May, 1901
Iwate	9,506	20 1/2	15th May, 1901
Izumo	9,506	20 1/2	14th July, 1901
Yakumo	9,500	20	24th Apr., 1900
Azuma	9,456	20	15th July, 1900

The two pontoons which have been  
in course of construction at the Kawa-  
saki dock yard for the raising of the  
Morgan City, have now been completed.  
The first of the pair left for the scene  
of the wreck on Monday evening and  
the other will leave tonight, writes the  
Kobe Herald. Men are already engaged  
at the wreck in preparing for the  
work of the pontoons, and it is expected  
that the actual work of raising the ship  
will commence in a week. Capt. Rob-  
ertson, of Seattle, who is in charge of  
the Insurance Company's interests in  
the matter, goes to Onomichi tomor-  
row to superintend the operations,  
along with the representatives of the  
Kawasaki Co.

A Peking dispatch says: Orders have  
been sent to Admiral Yeh, command-  
ing the Peiyang squadron, who is now  
at Canton with the fast cruisers Hal-  
tien and Haishou, to cruise to the  
Straits, emissaries of the Empress  
Dowager having already arrived at  
Singapore in the hope of assassinating  
or capturing alive Kang Yu-wei, Chin  
Shu-yuan, editor of the Tienan Sin-  
gao, and others of the Reform party  
who have taken refuge under the Brit-  
ish flag there. The speed of the Brit-  
ish cruisers (24 knots) as soon as the  
captured men are conveyed on board  
will defy pursuit by anything that the  
British Government possesses in the  
Far East. This is said to be the last  
resort of the Empress Dowager in her  
eager desire to slay her enemies of the  
Reform party.

The Yokohama correspondent of The  
Times of India, writing on the labor  
question in Japan, says that ever since  
the termination of the China-Japan  
war the lower class Japanese have been  
getting more and more out of hand,  
and though the authorities are fully  
aware of this, yet they have done ab-  
solutely nothing to put a stop to their  
ever increasing insubordinate behavior.  
In relation to this subject, the presi-  
dent of the Meiyō Kisen Kaisha, speak-  
ing at a meeting of the shareholders, in  
answer to a question, said that "Japa-  
nese sailors and stokers had been re-  
placed by Chinese because of their in-  
subordinate behavior; secondly, be-  
cause of their extravagance, and lastly  
because of their indolence." So also  
in the laundry work of Yokohama, af-  
ter repeated strikes of the Japanese em-  
ployees, Chinese washermen have been  
called in to the work, protected of  
course by the police at first. It is said  
also that such European establishments  
as the hotels, etc., are arranging for  
the services of Chinese, should they  
have any further trouble with their  
Japanese servants.

The Tokyo Presbytery of the Nihon  
Kirishito Kyo Kai held its regular  
spring session on the 4th and 5th inst.  
at the Nihonbashi Kaido, Tokyo. There  
was a full representation of ministers  
and elders, and the proceedings were  
all of a very satisfactory nature. An  
eloquent and spirited sermon was de-  
livered by the retiring Moderator, Rev.  
A. Inagaki, on the Gideon's three hun-  
dred men that lapped and his victory over  
the host of Midian. Rev. K. Inaba was  
chosen new moderator. The report on  
the state of religion showed a total of  
462,375 34 churches and of 37 preach-  
ing places were reported. There had  
been upward of 400 baptisms the past  
six months. The evenings were devo-  
ted to hearing reports from workers and  
churches and to preaching services of  
an awakening character. There was a  
conference meeting held regarding the  
best means of increasing spirituality  
and reviving the churches. The ad-  
dresses were all edifying. A commit-  
tee on church visitation was appointed  
from which much good is expected to  
accrue. Action was taken appointing  
the last Sabbath of May as Bible Sun-  
day, and requesting collections to aid  
the Bible Societies Committee in pub-  
lishing and circulating the scriptures  
in Japan.

## HAPPENINGS ON HAWAII

The News of the Big  
Island.

## REFORMER IS EXPECTED

Hilo Getting Ready for the Celebra-  
tion of Independence Day.  
Personal Notes.

The following news of the island of  
Hawaii is taken from the columns of  
the Hawaii Herald and Hilo Tribune.

Leong Ki Tsui to Visit Hilo.

The Chinese reform wave will prob-  
ably strike Hilo today and the members  
of the colony are waiting to receive it.  
Leong Ki Tsui, the young reformer, is  
expected here today and during his so-  
journ will enlist the sympathies of his  
countrymen in the movement. In Ho-  
nolulu about ninety per cent. of the  
Chinese have joined what is known as  
the Progressive Association and the  
membership includes the best class of  
Chinese.

A majority if not all of the Hilo  
Chinese favor reform so that when the  
mail is started the membership rolls of  
the society will be long. When through  
with Hilo, Tsui will probably make a  
tour of Hawaii, though invitations may  
be sent out for Chinese to come to Hilo  
to sign the roll.—Herald.

Nelly Goes on the Rocks.

The John McDonald, which was towed  
last Monday and supposed to be  
fairly started on her way to New York,  
took several steps to the rear in the  
course of the day, and at 9 o'clock that  
evening was so close to Pepee point  
that spectators on the bluffs above  
could look down upon her decks. In  
five minutes more she would probably  
have been upon the rocks with her car-  
go of sugar valued at over a quarter  
million dollars, when fortunately a puff  
of wind from the land came down over  
the high precipice and just touched her  
sails and kept her there. In a short  
time the wind might breeze set in  
and rapidly carried her from danger.  
Her precarious condition may be ap-  
preciated from the fact that she was  
further in shore than the Wilder steam-  
ers ever come to load plantation sugar.  
—Tribune.

Liabie to Blow Up.

The police department, after some  
investigation, find that considerably  
more giant powder and dynamite is  
being stored in various warehouses  
within the town precincts than the law  
allows, and it is proposed to change  
the status of things somewhat. The  
hair of the numerous boarders at De-  
mosthenes' Cafe turned white in one  
brief moment on Thursday when the  
learned that fifty cases of giant pow-  
der were stored in Kanai's warehouse  
adjoining. This has been removed,  
however, and the hair of the restaur-  
anteurs is gradually resuming its nor-  
mal hue. There is supposed to be a  
powder warehouse at a safe distance  
from the town, but like most Govern-  
ment institutions here, it wasn't in-  
tended for use, consequently two cases  
troubled it to the point of explosion.—  
Tribune.

The Waves Ran High.

The heavy northers experienced for  
several days this week resulted in such  
rough weather all along the coast that  
the local steamers suspended opera-  
tions entirely on Tuesday and Wednes-  
day and sought winter quarters in Hilo  
bay. Even here the surface of the water  
reminded one of a mill pond chiefly  
because it was so different. At high  
tide the lumber of the Hilo Mercantile  
Company on the makai side of the yard  
was threatened and a large force of la-  
borers was employed for several hours  
in removing it to a place of safety. So  
heavy a sea is rarely experienced here  
and the wharves and waterfront were  
crowded with spectators during the  
afternoon of Wednesday. The need of  
a breakwater and other harbor im-  
provements struck one even more for-  
cibly than on other occasions. We  
learned from the presence of the Hawai-  
ian Executive and various Honolulu  
friends whose names we could men-  
tion, but will not. We didn't want them  
on shore either. The natural advan-  
tages of the harbor are such that under  
ordinary conditions it is an excellent  
port but the liability that at any time  
a storm of this sort may occur renders  
it after all not a suitable commercial  
port, until improved.—Tribune.

Marine Surprise Party

On the evening of Saturday, the 14th  
instant, the many friends of Captain  
Johnson and his wife were thicker than  
the leaves of the vambrosia tree, gave  
him a genuine surprise. When the cap-  
tain recovered from his astonishment  
he received his guests in his hearty  
welcome and assured them that the  
Roderick Dhu was at their disposal.  
They accepted the captain at the word  
and were soon in the light fantas-  
tic to the most entertaining music.  
The evening was a that could be de-  
scribed in an extended story. The al-  
cohol and all assured Captain John-  
son they had never had a better time.  
The present were: Messdames Bald-  
win, Belling, Elliot, Guard, Halev,  
Forrest, K. H. Rice (2), Pratt, Hitch-  
cock, Wilder, Clay, Mayfield, Weight.

Misses Brodbeck, McDowell, Prime-  
roy, Barnes, Canario (2), Hapai (2),  
Baton (2).

Messrs. Belding, Baldwin, Child,  
Wilson, Halev, Kinnay, Pratt, How-  
land (2), Wilder, Forrest, Hitchcock,  
Hitchcock, Clay, Jackson, Matson,  
Schoen, Peterson, Winter, Ted, Guard,  
Johnson, Kinnay, Peck, Hapai, Ray,  
McLean, Drs. Milton and Philip Rice—  
Tribune.

The Kailua Term

Judge Wilder, Sheriff Andrews and  
Acting Deputy Attorney General Car-  
s Smith returned from Kailua Satur-  
day evening, where they had been at-  
tending court. Of the four cases be-  
fore a foreign jury three convictions  
were secured. There were five cases  
in which a jury was waived. No lie  
prose was entered in one, two were  
withdrawn and two plead guilty. There  
were no cases before a native jury. Ap-  
plications for divorce in two cases  
were granted. All civil cases in which  
parties at issue were on this island  
were disposed of, but the cases where  
either the parties or attorneys were in  
Honolulu were continued to the Octo-  
ber term.—Herald.

Serious Stabbing Affair

Kan Kee, a well-known Chinese  
merchant, made a knife assault upon  
his wife on Saturday last, cutting her  
in two places. It seems that the man  
was ill at his home on Front street,  
opposite Terry's shop. The illness  
was malarial fever and he became de-  
lirious. On Saturday his condition  
was worse and while the wife and an  
attendant were in the room Kan Kee  
got out of bed and stabbed his wife in  
the shoulder and side. The Chinese  
attendant interfered and was also  
stabbed. Kan Kee was then secured  
and put back to bed while his wife  
was removed to the home of Mr. Brann.  
The condition of Kan Kee continued  
to grow worse until Tuesday, when he  
died. He leaves a family.—Herald.

Fourth of July.

The committee of arrangements for  
the Fourth of July celebration met on  
Friday evening last to discuss a plan  
that would make the program attrac-  
tive to people in town as well as those  
abroad. The question of horse races  
and baseball was the only one dis-  
cussed and owing to the lateness of the  
hour.

The committee arranged a series of  
ten races with prizes aggregating \$1,  
675 and \$136 for the baseball game—  
\$100 to the winning and \$36 to the  
losing team. The celebration will be-  
gin with a salute and flag raising at sun-  
rise. These will probably take place  
at Waiohale and at 9 o'clock the pro-  
gram at the race track will begin with  
parade of best decorated rigs of all  
kinds, best four-mule team in which  
the plantations are to compete. A bi-  
cycle race will also be arranged. There  
will be a short program of athletic  
events. Prizes have not been fixed for  
these numbers. At the close of the  
athletic part of the program the ball  
game will begin and at 12 o'clock there  
will be an intermission for an hour. Re-  
freshments will be provided on the  
grounds so that there will be no neces-  
sity for persons going home for lunch-  
eon.

At 1 o'clock sharp the racing pro-  
gram will begin.

1. One-half mile running, Hawaiian bred  
horses, free for all. Purse, \$150.
2. One mile trotting and pacing, free for  
all horses with records of 2:30 or better.  
Best 2 in three. Purse, \$400.
3. One-half mile dash, free for all.  
Purse, \$250.
4. One-half mile pony, 14 hands or under.  
Purse, \$15.
5. One mile, free for all Hawaiian bred  
horses. Purse, \$200.
6. One mile dash, free for all. Purse,  
\$250.
7. One mile scrub race, blooded horses  
barred. Purse, \$50.
8. One and one-quarter mile, free for  
all. Purse, \$250.
9. Trotting, best two in three, for horses  
12, three minute class. Purse, \$50.
10. Mule race. Purse, \$50.

Valuable cups will also be offered.  
All races to be run under rules of the  
California Jockey Club and National  
Trotting Association.

All riders and drivers to appear in  
colors.—Herald.

The Railroads.

The running of a passenger train out  
of Hilo marks an epoch in the history  
of the island of Hawaii and shows the  
earnestness of the men behind the  
scheme to build the railroad. With  
the completion of the line to Olaa and  
Puna it is not difficult to believe that  
the volume of business done by Hilo  
merchants will largely increase. The  
extension of the line through Olaa to  
Kau, and possibly Kona, will make Hilo  
the distributing point for goods go-  
ing to those districts on the other side  
of the island. The building of a line  
through Hamakua and along the wind-  
ward coast will mean the bringing to  
Hilo orders which otherwise go to  
Honolulu. The feeling for Hilo on the  
part of Kona is not that of brotherly  
love, but if one can buy goods from  
Hilo merchants and have them deliv-  
ered a shade cheaper than he pays for  
them elsewhere, any little quarantine  
differences will not stand in the way;  
the only cause for the orders not com-  
ing here now is on account of irregu-  
lar or none at all, communication.  
Should the Kona-Hilo railway line  
be built to Kailua the Hilo merchants  
will profit by it to the extent of the  
cups consumed there. Hilo is a  
pretty good town to keep your eye on.  
—Herald.

The Race Track.

The Volcano Stables Company has  
arranged with Manager Kennedy of the  
Waialea Mill Company for the ex-  
tension of the race track so that it may be  
made into a one-mile course whenever  
needed. Plans for the grand stand are  
now under consideration and as soon as  
adopted work of construction will be-  
gin. Manager Wilson has decided to  
have the judges' stand built upon  
wheels so that the view of the baseball  
diamond from the grand stand will not  
be obstructed. When races are on, the  
judges stand can be moved into posi-  
tion.—Herald.

Wailuku Progressing

Protest Against Riotous Conduct of  
Japanese Laborers on Olo-  
walu Plantation.

The following is from the Maui News  
of April 21

The Olowalu Japs are still out on  
a strike, and it is thought that they  
will not resume work till affairs are  
adjusted on a satisfactory basis. They  
demand a jury trial, and as that can-  
not be had till June, in case it is de-  
cided that they are entitled to jury  
trial, the outcome is rather compli-  
cated. There should be no half-way  
measures adopted with the Japanese  
strikers, in case they should become  
riotous or disorderly. And it is a se-  
rious question whether they should be  
allowed to parade with the Japanese  
flag flying over them. If they were to  
try such a thing in the United States,  
they would be mobbed before they could  
go a block unless they carried  
"Old Glory" above the Japanese flag.  
As long as they remain orderly, the  
question of what to do with them  
should be left to the courts to decide,  
but the moment that they try by force  
or intimidation to accomplish their  
ends, they should be called down with  
a jar which would make their teeth  
rattle. If possible to find out who are  
the parties who offered indignities to  
the Japanese who came over to settle  
the trouble, they should at once be ar-  
rested and punished. To allow the  
guilty parties to escape is to invite fur-  
ther excesses.

The First Shots.

Dr. John Weddick of Wailuku re-  
ceived eight tubes of prophylactic se-  
rum from Honolulu on Thursday morn-  
ing, and, assisted by Dr. Winslow,  
"shot" eleven willing victims the same  
day. These are ten men who are en-  
gaged in renovating Kahului, four Japa-  
nese, five Chinese, one Hawaiian and  
Dr. Winslow, the latter of whom sub-  
mitted himself as the first victim. Dr.  
Winslow and some of the others state  
that a very nauseating effect resulted  
to them from the use of the serum, but  
several experienced no disagreeable ef-  
fects whatever.

Wailuku Progressing.

It is not optimism in the News to  
predict the growth of Wailuku. It can  
no more help growing than a healthy  
baby or a spring lamb. The suggestion  
is sometimes heard that Wailuku is  
throttled in the clutches of the Wailuku  
Sugar Plantation. This is a common  
practical business proposition, and  
as soon as it is more profitable to build  
a town than to put in cane, the cane  
will go and the town will come. What  
is needed is an energetic, active ad-  
ministration of city affairs, and a like  
class of newcomers will appear. Wailuku  
will always be the shire town of  
Maui, with courthouses, jail, schools  
and the other concomitants of a city.  
The plantation will sell city lots as  
soon as it becomes more profitable to  
do so than to cultivate and healthy site  
for a city Wailuku has no peer on the  
islands. Nestled in the foothills at the  
mouth of Iao valley, it is out of the full  
sweep of the trade winds, but is al-  
ways fanned by gentle breezes fresh  
from the ocean which keep the air de-  
lightfully cool and exhilarating. An  
abundance of fresh, pure water is as-  
sured, and no lovelier spot could be  
found anywhere for either ideal sum-  
mer cottages for the heat-burdened citi-  
zens of other portions of the islands  
or for a winter resort for the ice-lock-  
ed towns of the Mainland.

Rats at Kahului.

We occasionally hear it asserted  
here on Maui that there has been no  
real plague either in Honolulu or at  
Kahului, but that the scare has been  
generated and worked for the purpose  
of raking the Hawaiian treasury. If  
true, this ought to be known, and to  
determine the matter, the News pro-  
poses to the next doubting Thomas  
that, in the interests of the public, he  
should go down to Kahului and fondle  
the next dead rat that is found under  
the warehouse. The News will guaran-  
tee to pay the cost of carrying "Quod  
E-Rat Demonstrandum" on his tomb-  
stone.

News in Brief.

It certainly seems a singular con-  
coction on the part of the business-  
men in Honolulu to demand that the  
Court of Claims should be composed  
of business men rather than lawyers.  
Doubtless President McKinley's com-  
mittee was to create a court and a  
committee. And doubtless it was  
Dole so understood it. In fact, it never  
occurred to any one that it was no

# ROW WITH THE PORTE

America Sends it an Ultimatum.

## SMYRNA MAY BE SEIZED

But First Every Effort Will be Made to Bring the Sultan to Terms.

NEW YORK, April 18.—A special to the Tribune from Washington says:

The United States Charge d'Affaires at Constantinople will be directed to inform the Sultan that this Government must insist upon the payment without further delay of the \$100,000 indemnity for outrages on American missionaries and destruction of their property, unless prompt action on the Sultan's part anticipates the ultimatum and the debt is discharged before a resort is made to drastic measures.

Several courses have been urged on the President for the collection of the \$100,000 indemnity which is admitted by the Sultan to be due to the American missionaries. Consideration has been given to a proposition to seize the port of Smyrna and administer its customs revenues until the judgment and expenses of collection are canceled. This course has not been wholly abandoned in the remote contingency that satisfaction is indefinitely delayed. It involves serious complications in the Mediterranean, for which the United States is extremely reluctant to assume responsibility for the recovery of so small an amount at the present time.

It might precipitate war through Turkey's sending some of its antiquated warships to Smyrna to resist the temporary American occupation. In that event the necessity for sending a large fleet to the Mediterranean would create alarm among the Powers and disturb the delicate equilibrium now existing in Europe.

Under the circumstances it has been determined that diplomatic resources will be first exhausted with confidence that the Sultan will be brought to understand that his promises cannot be lightly broken. The proved claims against Turkey included about \$300,000 for the destruction of property alone. To these, which admitted of practically no dispute, there was added by the Lantz claim of \$40,000, which was presented by Secretary Olney.

**Europe After the Porte.**  
CONSTANTINOPLE, April 17.—The Porte today replied to the third note of the collective powers on the subject of an increase of three per cent in duty. The note announces the intention of the government to adhere to the plan of increasing the duties on account of the bad condition of Turkish finances. The ambassadors have decided to address another note to the Porte again stating the objections to such an increase without a previous understanding with the powers. The tenacity of the Porte threatens to have serious results.

## THE COMMISSIONERS APPOINTED BY PRESIDENT M'KINLEY TO ESTABLISH A GOVERNMENT IN THE PHILIPPINES ARRIVE ON THE U. S. A. T. HANCOCK WITH THEIR FAMILIES

HON. LUKE E. WRIGHT.

PROF. BERNARD MOSES.

JUDGE HENRY C. IDE.

JUDGE WM. H. TAFT.

PROF. D. C. WORCESTER.

THE transport Hancock, with the Philippine Commission aboard, arrived here yesterday from San Francisco. The party is a large one, as it consists of the five commissioners and their private secretaries, clerks and interpreters, and the families of the officials—in all about forty-five persons.

The members of the Commission are William H. Taft of Cincinnati, chairman, who is also expected in due time to become the first American Governor General of the Philippines, Luke E. Wright, of Memphis, Dean C. Worcester, of Michigan University, who was a member of the first Philippine Commission, Henry C. Ide of Vermont, formerly Chief Justice of Samoa, and Prof. Bernard Moses of the University of California.

Chairman Taft is probably the best-known man on the Commission. During the past eight years he has been United States Circuit Judge of the Sixth District, with his home at Cincinnati, but resigned his position in order to give all his time to this important work. Prior to his appointment to the bench of the United States Circuit Court Judge Taft was Solicitor General of the United States for two years, and before receiving that appointment was for many years a Judge in the Superior Courts of Ohio.

Following is an excerpt from the speech made by Judge Taft at Cincinnati on March 5, in which he states his position at the present time:

"I am not now and never have been an expansionist. I have always hoped that the jurisdiction of our nation would not extend beyond the territory between the two oceans. We have not solved all the problems of popular government so perfectly as to justify our voluntarily seeking more difficult ones abroad. We have not voluntarily sought them. Circumstances beyond our control, the sequel of the Spanish war, have thrust on us responsibility for the future government of the Philippines. The proposition is vigorously denied by high-minded and conscientious men and by some with a fury of superlative and epithet that is hardly consistent with a judicial attitude or an impartial consideration of the question.

"My conviction is that the calm investigation of the future historian into all the conditions existing at the time of taking each step toward the present situation in the Philippines will lead him to conclude that President McKinley and his administration selected in each crisis the only alternative which a due regard to our national and international obligations would permit.

Luke E. Wright is one of the best-known lawyers of the South. He served through the Civil War as a private in the Confederate army, has been a lifelong Democrat, but is a firm believer in expansion.

Professor Bernard Moses has been for many years professor of political economy in the University of California, and has written much on economic subjects.

Of the five Commissioners Professor Worcester is the only one who has ever been in the Philippines. He was a member of the last Commission, and spent some time there with the army. Prior to that time he made two scientific expeditions into the islands—the first in 1887 and the last in 1891, on which occasion he remained three years. He has held the chair of assistant professor of zoology at Ann Arbor University, but recently resigned the position. He has published a book on the islands, which has proved very valuable. Of the Filipinos, Commissioner Worcester is quoted as saying:

"There are eighty-four tribes in the Philippines. Seven of them are more or less civilized. Six of the latter live on Luzon island. The Tagalos, one of the six in question, are either bitterly hated or are not liked by the other five. The seven civilized tribes outnumber the Tagalos by 1,000,000 people. Practically all of the trouble is being caused by the Tagalos. Aguinaldo's cabinet and government contained none but Tagalos, and yet he claimed it represented the 8,000,000 people in the Philippines.

"In religion the Filipinos are pagan, Mohammedan and Christian. If the

islands were left free from outside interference it is my firm conviction that the Mohammedans would eventually gain the mastery.

"The Filipino is dishonest. That is a legacy from his Spanish training. It will be a drawback to his self-government. I believe the Filipinos should be given as much self-government as they are fitted for. Let them be given every office they can show they have the ability and honesty to handle."

A. W. Ferguson is the Spanish secretary and his assistant is F. C. Dominguez. Mr. Ferguson acted as interpreter for the Paris Peace Commission. He resigned the position of Chief Translator of the Bureau of American Republics at Washington in order to accept a position under the Philippine Commissioners. Mr. Dominguez is well known in the southern part of California as an expert interpreter.

J. W. Brannigan is the distributing officer of the Commission. He held the same office under the Paris Peace Commission, and resigned the position of distributing officer for the Department of State at Washington in order to accompany the Philippine Commissioners.

The Commission is without a secretary, as Charles N. Pepper, the noted correspondent, was appointed secretary some time ago, but declined the honor. His successor has not yet been named.

As soon as it was known that the steamer was coming into the harbor many people went to the wharf. Among them were Minister Harold M. Sewall, Col. Ennis, Col. Ruben and Lieut. Commander Pond, U. S. N. These gentlemen boarded the vessel as soon as possible and paid their respects to the distinguished party aboard. In conversation with an Advertiser reporter, Judge Taft, chairman of the Commission, said:

"We are on our way to Manila to assist in the establishment of a civil government for the islands. We expect to take part in the establishment of the educational system to be inaugurated throughout the group. The formation of local town and district governments will first be the duty of the Commission. This will be the idea of the work: To fit the islanders for the carrying out of their own government when the time comes. We do not expect to exercise any actual power for at least a couple of months after our arrival.

"I do not feel it incumbent upon myself to speak of the positive instructions given the Commission, as they will be given out from Washington. General Otis has asked to be relieved and expected to leave before we reach Manila, but I am told he will remain until we arrive, and will return in this steamer to the Coast."

Judge Taft made many inquiries as to the situation here and seemed interested in the development of the country.

It has been decided that while here the Commissioners' party will see as much of this island as possible, and last night preparations were being made for trips to different points of interest in and about Honolulu. Judge Taft spoke of a desire to make a trip over the line of the Oahu Railway & Land Company to view the plantations, and it is thought that probably a trip in a special car can be arranged for the Commission.

Besides the Commissioners the following are members of the official party: Arthur Ferguson, Spanish secretary; F. A. Brannigan, disbursing officer; Rutherford Corbin, assistant secretary; F. C. Dominguez, assistant Spanish secretary; Mr. Broussard, clerk and messenger to the Commission; Mr. Coffman, private secretary to Judge Taft; Fred. Huskell, secretary to Judge Wright; P. S. Carter, secretary to Judge Ide; D. R. Williams, secretary to Prof. Bernard Moses; and Mr. Le Roy, secretary to Prof. Worcester.

The others of the party are: Mrs. W. H. Taft, three children and maid; Miss Herron, Miss Ide and maid, Miss Majorie Ide, Mrs. Moses, Miss Briggs, Mrs. Wright and maid, Miss Wright, Mrs. Worcester, two children and maid; Mrs. Brannigan, Master Brannigan, Mrs. Ferguson, Master Ferguson, Mrs. Le Roy, Mrs. Kneedler and two children, Mrs. Thomas, Dr. and Miss Bouns, Capt. Wm. L. Kneedler, U. S. A.; Major M. A. Bateson, U. S. V.; Miss Harriet L. McCord, and Florence M. Brouck, contract nurses. The ladies and children are to be left at Yokohama for a month, until the Commissioners have secured houses and made everything ready for their comfort.

### DE ARCOS INSULTED.

Unfortunate Action of the Mayor of Chicago Brings Rebuke.

CHICAGO, April 15.—Mayor Harrison today received from Duke de Arcos, the Spanish Minister at Washington, the following reply to an invitation to attend the Dewey celebration in Chicago:

"WASHINGTON, April 14.—Sir: I return to you here inclosed an invitation from the city of Chicago for the celebration of the second anniversary of the battle of Manila, which I take for granted has been sent to me by mistake, as it is the first discourtesy I have met with since I am in the United States.

"It is impossible for me to believe that you have advisedly asked me, the representative of Spain, to go to your city and rejoice with you on the destruction of the Spanish ships and on the death of so many brave sailors—my compatriots. That would have been simply an insult, and as I do not deserve it and it cannot have been your intention, I am perfectly sure, as I say, that all this is the result of an error."

In reply Mayor Harrison has written the Minister, explaining that the invitation was sent through the carelessness or ignorance of a clerk and extending sincere apologies for the unintentional discourtesy.

### Precious Babies

Mother's comfort. Father's delight. God's dearest earthly gift to man.

What a happy sight; the healthy, robust, vigorous, rollicking, always the same baby. What a sad sight; the puny, blue and pale, restless, crying baby. Nine out of ten times the child is troubled with worms. It shows it in convulsions, spasms, colic. And ten times out of ten Kleckapoo Indian Worm Killer will drive out the pesky life-eating worms. It is nature's remedy, and as the healthy child is the natural child, it must make the sickly child healthy. The Indians living close to nature, discovered the remedy. For centuries they used it to make their babies rugged, powerful, fearless. What it has done for the child of the forest, it will do for the child of the civilized—cure. That is what it has been doing for years. You can get it of your druggist for 25 cents. Be sure and get the genuine. The child's life is too precious to trifle with worthless substitutes. Hobson Drug Co., agents for the Kleckapoo Indian Remedies.

A large force of Boers has appeared to the south of Bloemfontein, threatening an assault upon the invaders' line of communication.

### Called to Washington.

Consul General Haywood received letters by the Doric which has caused him to prepare for an immediate journey to Washington. He will go on the Coptic which leaves for the Coast on Friday. His going and returning trips will be made in the most expeditious manner possible.

### Engagement Announced.

The engagement of Miss Burl to Mr. George Waterhouse of this city was announced yesterday at an afternoon tea given by Mrs. F. P. T. Waterhouse in honor of Miss Burl.

Gen. Montenegro, one of the Tagal insurgents' best fighters, has surrendered to Colonel Smith.

### REMARKABLE CURE OF RHEUMATISM.

Kenna, Jackson Co., W. Va.

About three weeks ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to the directions and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since.—A. # EIGHTY-FIRST ANNIVERSARY OF THE INDEPENDENT ORDER OF ODD FELLOWS CELEBRATED LAST NIGHT

The eighty-first anniversary of the Independent Order of Odd Fellows was celebrated by an entertainment and ball held last evening at Progress Hall. It was the largest and most successful affair of the kind given in Honolulu this year. The hall early in the evening, notwithstanding its size, was crowded so that the dancing space was limited, but after the supper was served many of the spectators and some of the dancers did not return to the floor, so that shortly after midnight the dancers had plenty of room. After the entertainment program was concluded, the hall was cleared for dancing which continued until an early hour this morning. All formality was cast aside and the sociability so characteristic of the Odd Fellow gatherings was delightfully noticeable. Fully one hundred couples were on the floor at one time. Solomon's Quintette furnished the music and rendered many beautiful selections.

The decorations about the hall were appropriately and tastefully arranged by George W. R. King. They were favorably commented upon for their rare originality. Underneath each bunch of incandescent lights was a brilliant rosette of bunting, and along the walls were emblems of the order, designating the orders represented in Honolulu, namely, Excelsior No. 1, Harmony No. 2, I. O. O. F. A conventional tent at the back of the stage bore the insignia of the Polynesian Encampment No. 1. Small tents occupied the corners of the hall.

Allan Dunn recited a selection of his own composition entitled "An Evening Party," in a droll, humorous style which brought down the house. The solo of Mrs. Walter Hoffmann was rendered in a pleasing manner and evoked much applause. Each number was well received. The program was as follows:

Mr. W. C. Parke, D. D. G. S., chairman of the general committee, made the opening address, and spoke as follows:

Officers and Members of the Independent Order of Odd Fellows.

Ladies and Gentlemen: As chairman of the anniversary committee for the eighty-first anniversary of our order, I bid you all a hearty welcome this evening. Wherever Odd Fellows can be found today, in large or small numbers, you will see them meeting to celebrate this anniversary; so we have met in this prettily decorated hall to do honor to the day. Looking back on the eighty-one years' history of our order, we are struck with its wonderful growth. From the one lodge with five members in 1819, it has increased to 11,419 lodges, with a membership of 830,961, from the city of Baltimore, where the first lodge was instituted, the order has spread over all of the United States, then beyond its boundaries, crossing lands and seas, until today it is established, and its principles taught under many different flags. This expansion bears testimony to the fundamental principles and truths which underlie Odd Fellowship, which are exemplified in the three links, "Friendship, Love and Truth." The practical carrying out of this motto has given life to the order for eighty-one years, and will continue to do so, as we believe, until time shall be no more.

For our own jurisdiction, the past year has been one of increased membership and our financial standing has never been better. This should encourage us to do even better for the coming year.

The order as a whole has had an increased growth, and with the number of its enrollees in the Rebekah lodges (19,007) enables us to honestly

and advancement, the different nations of the world are coming more and more that cannot be shown, is the friendly greeting of brothers, and aid and sympathy in times of sickness and trouble. This is an age of progress into contact, their interests are more in common, and though the period is far distant, yet there is a steady advance in the idea of universal brotherhood.

One of our greatest truths is embodied in it, a brotherhood independent of party, sect, or social distinction. If we go back far enough in the history of the world, we find the word brother applied to actual relationship, then through the ensuing centuries, in a larger sense brotherhood includes persons of a certain tribe or clan. And later still the term is not restricted to relationship, or membership in a clan or tribe, but meant any one in need, irrespective of country or race, whether rich or poor.

This latest idea is best illustrated in the parable of the man, who went down from Jerusalem to Jericho, and was robbed and left wounded by the way-side. Among those who passed by, who exhibited the true fraternal spirit for the wounded man. Was it the Jew, his countryman, who should naturally have rendered assistance. Was it the priest whose official duties should have set the example of help? No, the true feeling of brotherhood was left to the next man who came along the road. A Samaritan, an enemy of his people, was the one who had compassion for the wounded man, and brought him to a place of safety, and provided sustenance for him.

Our order is close upon the end of this century, and before long will be celebrating its centennial anniversary. May the record for the future be even better than it has been in the past.

Among the many dancers seen on the floor were Mr. and Mrs. J. A. Magoon, Dr. and Mrs. Bowman, Mr. and Mrs. H. A. #### THE TOLNA WRECKED.

Count and Countess Festetics Were Here With Yacht in 1893.

News came yesterday by the Moana of the wreck of the fine yacht Tolna belonging to Count and Countess Festetics, near the Island of Ninereoy, in the Indian Ocean, with the loss of all on board save the owner and two servants. The Countess, who is a daughter of J. B. Haggis, the famous millionaire horseman, was not with the yacht, but was at the time residing at the Fifth Avenue home of the Haggins. The Tolna arrived in Honolulu on the commencement of her trip around the globe, on October 26, 1893, seventeen days out from San Francisco. Before coming to Honolulu the yacht touched at Hilo and Lahaina. #### BOHEMIAN EARTHQUAKES.

The Ridges of a Mountain Range are Moving.

LONDON, April 18.—The Vienna correspondent of the Daily Telegraph says: The mountain which overlooks the town of Klappi, where the landslide recently occurred, has undergone seismic disturbance which is spreading throughout the entire province of Bohemia, between the rivers Elbe and Eger.

The heights of the Bohemian middle range are moving, and houses and churches have collapsed in some thirty villages. Railway embankments have been moved, streams diverted and roads sunk. Thus far there has been no loss of life but a constant watch is imperative.

#### Kohala-Hilo Road.

## AYER'S Sarsaparilla

In less than two weeks our daughter could sleep well at night. Her mother and I went into her room at all hours of the night, it seemed so good not to hear that awful hollow cough. She raised great quantities of blood, yet without pain. All this I can now say she is entirely cured.

## HAPPENINGS ON HAWAII

### Hilo Has a Future.

It is the opinion of a prominent Honolulu business man that the sooner Hilo people wake up to the fact that this town has a higher future, and grasp the opportunity before them, the more likely they will be to get there before outsiders step in. He also states with equal positiveness that Hilo business here they must put in branch establishments. This he hopes will be done. The more interests Honoluluites have here, the more they will help in securing the public improvements that the town's needs demand. The assistance which they can give us, if they will, is not to be despised.—Tribune.

### Stabbing Epidemic.

Though we apparently haven't bubonic plague germs in Hilo there seems to be some sort of a bug in the air that is pretty nearly as mischievous, if one may judge from the stabbing epidemic that has hit the town. We aren't particularly proud of it, even when we look at it in the most favorable light, and try to believe it is a mark of progress and the proper thing in a booming up-to-date town, which Hilo certainly is—speaking hyperbolically. Greatness has its penalties, and if we will Hilo Honolulu we must expect some-what attendant.—Tribune.

# BULLER IN BAD ODOR

Roberts Scores Him for  
Blundering.

## SHARP COMMENT AT HOME

Warren May be Recalled—News from  
Dalgetty—Boers Appeal to  
Afrikanders.

LONDON, April 17.—The War Office tonight publishes in the "Gazette" a dispatch from Lord Roberts, dated February 13th, submitting General Buller's dispatches describing the Spion Kop and other operations from January 17th to January 24th. Lord Roberts deals severely with General Warren and some others. Even General Buller does not escape. Lord Roberts complains that the plan of operations is not clearly described in the dispatches. After sketching General Buller's intentions, as communicated to Sir Charles Warren, who commanded the whole force, Lord Roberts points out that General Warren seems to have concluded, after consultation with his officers, that the flanking movement ordered by General Buller was impracticable, and therefore so changed the plan of advance as to necessitate the capture and retention of Spion Kop. Lord Roberts continues: "As Warren considered it impossible to make the wide flanking movement which was recommended, if not actually prescribed in the secret instructions, he should forthwith have acquainted Buller with the course he proposed to adopt. There is nothing to show whether he did so or not. But it is only fair to Warren to point out that Buller appears throughout to have been aware of what was happening."

Regarding the withdrawal from Spion Kop, the retention of which had become essential to the relief of Ladysmith, Lord Roberts says: "I regret to be unable to concur with Buller in thinking that Thorneycroft exercised wise discretion in ordering the troops to retire. I am of the opinion that Thorneycroft's assumption of responsibility and authority was wholly inexcusable. During the night the enemy's fire could not have been formidable, and it would not have taken more than two or three hours for Thorneycroft to communicate by messenger with Major-General Coke or Warren. Coke appears to have left Spion Kop at 9:30 p. m. for the purpose of consulting with Warren. Up to that hour the idea of withdrawal had not been entertained. Yet almost immediately after Coke's departure Thorneycroft issued the order, without reference to superior authority, which upset the whole plan of operations and rendered unavailing the sacrifices made to carry it into effect. On the other hand, it is only right to say that Thorneycroft appears to have behaved in a very gallant manner throughout the day."

"It is to be regretted that Warren did not himself visit the Spion Kop in the afternoon or evening, knowing as he did that the state of affairs was very critical and that the loss of the position would involve the failure of the operations. He consequently was obliged to summon Coke to his headquarters, and the command at Spion Kop thus devolved on Thorneycroft, unknown to Coke, who was under the impression that the command devolved upon Colonel Hill as senior officer. Omission or mistakes of this nature may be trifling in themselves, yet they may exercise an important influence over the course of events, and I believe Buller was justified in remarking: 'There was a want of organization and system which acted most unfavorably on the defense.'"

"The attempt to relieve Ladysmith was well devised, and I agree with Buller in thinking it ought to have succeeded. That it failed may in some measure have been due to the difficulties of the ground and the commanding positions held by the enemy, and probably also to errors of judgment and want of administrative capacity on the part of Warren. But, whatever faults Warren may have committed, the failure must also be attributed to the disinclination of the officer in supreme command to assert his authority and see that what he thought best was done, and also to the unwarrantable and needless assumption of responsibility by a subordinate officer."

The dispatch concludes: "The gratifying feature of these dispatches is the admirable behavior of the troops throughout the operation."

Comment in London.  
LONDON, April 18.—(1:55 p. m.)—Lord Roberts' criticisms of General Buller, General Warren and Colonel Thorneycroft continue topics of acute interest. All the afternoon papers comment at length on the strictures of the British commander-in-chief in South Africa, taking the same lines as the morning papers, praising Lord Roberts for his frankness and speculating upon what the publication of the dispatches at the present moment portends.

Some of them maintain there is nothing left for General Buller but to resign. The St. James Gazette is particularly scathing. Referring to General Buller's report it says:

"Never in the history of armies did it happen that Generals scribbled their confessions of failure and defeat, of useless deaths of men and of discredit to the flag in a manner which surges a careful selection from the forced jocular manner, the slangy language of the horseman, and the gabble of the smoking room in the evening."

The Globe declares that "a more pitiable record of indecision in plan and confusion in execution we have seldom read" and adds that "what little reputation General Buller had left has been scattered to the winds."

Practically no developments have been reported so far in today's South African cables. A despatch from War-

ren dated Tuesday, April 17, says: "Finding the Boers busy making new trenches we exploded lyddite shells following up these with the Maxim's. The enemy's ambulance was afterwards observed on the spot."

From Wepener there is nothing later than Lord Roberts' message of yesterday and presumably neither side has gained any particular advantage at any point in the theater of war since these last official despatches were received.

It is persistently insisted in military circles that Lieutenant General Sir Charles Warren, the commander of the Fifth division in the South Africa field forces, has been ordered to return home.

It is said that a peremptory order for General Warren's return was cabled to South Africa this morning.

The War Office declined to give any information in regard to the current reports that General Warren had been recalled.

### News From Boer Sources

PRETORIA, Tuesday, April 17.—The latest official reports from the Free State are to the effect that General Dewet is still surrounding General Brabant (Dalgetty's) forces though the British forces are strongly entrenched in Boer fashion, indicating that they are colonialists.

Commandant Fronemann reports that he chased 400 troops across the river in the direction of Allwal North, capturing several prisoners. It is said that Bethulle bridge has been blown up.

### News from Dalgetty.

MASERU, April 17.—Colonel Dalgetty's casualties since he has been besieged at Wepener have been 20 killed and 100 wounded. The Boer losses are reported to have been considerably heavier.

After the night attack on April 12th the dead were left on the field where they still lie unburied.

There is a conflict of opinion among the leaders. Some want to attack again, while others refuse to do so. Desultory cannon firing and "sniping" continues.

The Caledon rising, which alarms the Boers, as it is now on both sides of the river, might be cut off if the stream was to become flooded.

Five Boer guns are believed to be disabled.

### Honors for Canadians.

OTTAWA, Ont., April 18.—The Imperial Government has decided to give 24 out of the 44 commissions to be granted to Canadians in the regular army to officers and non-commissioned officers serving in South Africa. Six commissions will be given to Canadian gentlemen and these, with the fourteen which have gone to the Royal Military College, Kingston, will make 44. Lord Roberts will send the names of twenty-four of those in South Africa whom he recommends as candidates for commissions.

### Appeal to Afrikanders.

CAPE TOWN, April 18.—The Boer Governments are circulating the following manifesto to the Afrikanders throughout Cape Colony:

"We feel that our fate and the fate of the whole of Africa is at stake, and we appeal you to stand and fight shoulder to shoulder with us. You cannot, you may not, allow the tyrant to extinguish forever your finest traits of character as a nation."

"With you on our side the issue cannot be doubtful. You must conquer. God grant that love for your country and your liberty and the noble virtues of men truly free may induce you to join us in the hour of our supreme struggle."

### Delagosa Bay Award.

PRETORIA, April 18.—As soon as the Berne award of the Delagosa Bay railway arbitration was published the Transvaal Government offered to lend Portugal the amount she was condemned to pay (\$5,000,000) which, however, was courteously declined, the statement being made that the money was already provided. The government is receiving many memorials from Burghers on the subject of sending the Boer prisoners to St. Helena and will formally protest to Great Britain on the subject.

Secretary of State Reitz says the Transvaal Government is not taking any resolution regarding the destruction of the mines.

American capitalists are en route to Russia to secure the contract for building the railway from St. Petersburg to Odessa, traversing more than half the Empire from north to south. The road will not cost less than \$90,000,000.

# F. E. CHURCH

Dies in New York at a  
Ripe Age.

He Was One of America's Greatest  
Landscape Painters—His Son  
a Business Man Here.

Fred J. Church of the Honolulu Photo Supply Co. received by the Doric the sad news of the death of his father, the noted American artist, in New York early this month. Mr. Church's father was quite an old man at the time of his death and for years has been an invalid. His winters were spent in Mexico as the guest of Pres. Diaz and has had just returned to New York when he was called from this world.

The New York Herald of April 10th says:

Frederic E. Church, one of the most renowned of American landscape painters, died here yesterday morning, in the former home of his lifelong friend, W. H. Osborn, now deceased. His residence is at No. 32 Park avenue.

Mr. Church was in his seventy-fifth year. He had been in feeble health, almost an invalid, for more than a decade, but notwithstanding had gone to Mexico for twelve successive winters. He returned from his last visit to that country two weeks ago, and was taken ill immediately afterward. He could not be removed to his home, Oleana, overlooking the Hudson, at Catskill station.

There are in the family three sons—Frederic, Theodore and Louis—and a daughter, now Mrs. Black.

Mr. Church was next to the oldest member of the National Academy of Design. Some of his wonderful paintings date back fifty years. They have always been prized and many of them now hang in the best galleries.

One of the oldest paintings is "The Niagara," now in the Corcoran Gallery, at Washington. It was bought by the gallery for \$12,500. Another of a similar subject, "The Horseshoe Falls," was owned by the late A. T. Stewart and has now found its way to one of the best galleries in Edinburgh.

When Mr. Church's painting, "The Heart of the Andes," was on exhibition in his studio, in Tenth street, several years ago, it is related that the street was so crowded that policemen came to keep a passageway open.

Perhaps he was best known for his marvellous pictures of icebergs. One of these paintings, "The Iceberg," is now in England. "The Heart of the Andes" is owned by Mrs. David Dows, of this city. "Cotopaxi," a beautiful picture of a mountain landscape is in the Lenox Library. Other paintings are the property of Mrs. Osborn.

Mr. Church was a member of the Century Club, the Metropolitan Museum of Art Association, the National Academy of Design and the American Museum of Natural History Association. Mrs. Osborn has written the following tribute to the memory of the artist:

"No other artist has studied nature in so many different parts of the world or under such varied aspects. The iceberg floating on the lonely Northern ocean, touched by the rays of the setting sun; the evanescent rainbow hovering over Niagara Falls, the snow capped peaks and tropical forests of South America, the dignity of the Parthenon at Athens, the pathetic solemnity of Jerusalem, the Holy City, as seen from the Mount of Olives, all have been portrayed by the same masterly hand, and are works of art of which our country may well be proud."
